

Unit Ref:	BL613
Ofqual Ref:	Y/615/4615
Title:	Delivering Bulk Explosives to Blast Location
Level:	3
Credit value:	4
Guided Learning Hours:	14
Performance learning outcomes <i>The learner will:</i>	Performance assessment criteria <i>The learner can:</i>
1. Be able to deliver bulk explosives to blast location.	<ul style="list-style-type: none"> 1.1 Comply with site entry procedures and specific site requirements for identification, registration and induction of contractors. 1.2 Report to site personnel with responsibility for yourself and the blast. 1.3 Identify the route to the blast site. 1.4 Confirm that the route is suitable for the vehicle. 1.5 Receive and confirm your understanding of site rules and procedures for the work activity. 1.6 Confirm the loading requirements for the blast according to the blast specification. 1.7 Confirm the quantities and qualities of delivered explosive materials are as required and sufficient for the blast specification. 1.8 Drive the vehicle to blast location checking for potential hazards. 1.9 Inspect and confirm the loading position and area safety and protection arrangements are appropriate for the work activity. 1.10 Position the vehicle at the optimum loading point. 1.11 Carry out work activities according to the approved policies, procedures and practices.
Knowledge learning outcomes <i>The learner will:</i>	Knowledge assessment criteria <i>The learner will know and understand:</i>
2. Understand how to deliver bulk explosives to blast location.	<ul style="list-style-type: none"> 2.1 The approved policies, procedures and practices in the context of the work activity. 2.2 The responsibilities of self and relevant others under the health and safety statutory requirements. 2.3 The relevant legislation associated with the work activity in the blasting environment. 2.4 How to handle and transport explosive materials on site. 2.5 The on-site driving techniques. 2.6 The potential hazards and risks during transportation on blast sites. 2.7 The hazards and risks to other persons on site arising from bulk explosive truck operations. 2.8 The process for the identification and checking of safe driving routes and loading positions on sites. 2.9 The reasons for specified routes to be used when transporting explosive materials. 2.10 The limits of own responsibility. 2.11 The action to be taken in the event of problems encountered outside the limits of own personal responsibility.
