MPQMG14
Operate plant or machinery to receive or transport mine personnel, materials or minerals

Overview

This standard states the skills, knowledge and understanding required to operate plant or machinery designed to receive or transport mine personnel, materials or minerals, underground. This includes, for example shuttle cars, free steer vehicles, dumpers, conveyor systems, locomotives and shaft cages. It includes the interpretation of information, setting up, operating and shutting down the machinery, including the selection and use of materials, components or equipment required for the operation of the plant or machine, in a safe, healthy and efficient manner.

The standard applies to anyone operating the mining plant or machinery to transport personnel, materials or minerals into, out of, or within a mine.

Performance criteria

You must be able to:

P1 agree with others the work to be carried out

P2 check the availability and suitability of the **resources** required for the operation of the **plant or machinery**, and completion of the work

P3 confirm that the **plant or machinery** is safe and ready to operate

P4 follow start up procedures according to organisational and safety requirements

P5 operate the **plant or machinery** to receive or transport mine personnel, materials or minerals in accordance with **approved policies, procedures and practices**

P6 monitor the performance of the **plant or machinery**

P7 make adjustments to the **plant or machinery**

P8 make adjustments to the work plan as required to complete the work within limits of your responsibilities

P9 carry out the work minimising risks to yourself, others, plant and machinery and the work environment

P10 follow shut down procedures according to organisational and safety requirements

P11 report according to organisational requirements

Knowledge and understanding

You need to know and understand:

K1 the organisational **approved policies, procedures and practices** as appropriate to the work activity

K2 the organisational information, communications and reporting arrangements relating to the work activity

K3 the **resources** required to support the work activity, their uses, how to check them, and how to secure, store or dispose of after use

K4 the operational instructions for starting, operating, adjusting, shutting down (in routine and emergency situations), and securing after use the **plant or machinery**

K5 the operational capacity and limitations of the **plant or machinery**

K6 how to monitor the performance of the **plant or machinery**

K7 how to confirm that the load is as required

K8 when and why adjustments to the **plant or machinery**, and the work activity may be required

K9 the hazards and risks associated with the work activity, how they affect yourself, others and the work environment, and how they are controlled

K10 problems that can occur with the work activity, and how to respond to them

K11 the limits of your own role and responsibilities

K12 the actions to be taken in the event of damage, breakdown or unsatisfactory performance of plant, machinery, equipment or resources

Additional information

Scope/range

1 **approved policies, procedures and practices**: legislative, organisational, operational, accident or emergency, health and safety, first aid, and environmental as appropriate to the mine, plant or machinery, and work activity

2 **plant or machinery**: operate one or more of the following categories of plant or machinery – free steer vehicles; dumpers (rigid or articulated, front or rear tipping; conveyors; locomotives; lifts; cages; winders; haulage engines; manriders; shuttle cars; bowsers; pumped systems (for slurries and other material in suspension); other specialised mine transportation plant or machinery

3 **resources**: tools; equipment; utilities and services; consumables; attachments; replaceable parts; other resources as appropriate to the work activity

MPQMG14
Operate plant or machinery to receive or transport mine personnel, materials or minerals

Developed by	MPQC
Version number	1
Date approved	February 2014
Indicative review date	December 2019
Validity	Current
Status	Original
Originating organisation	MPQC
Original URN	MPQMG14
Relevant occupations	Mineworker; Coal mine operatives
Suite	Mining Operations
Key words	mine; mining; mineral; plant; machinery; equipment; resources; operating; excavate; extract; transport
